Dear Bob:

Subject: [REDACTED] Promotion 25X1A9a

25X1A9a Before acting on [REDACTED] 8 December 1958 recommendation  
25X1A9a for the promotion of [REDACTED] to GS-11, I would like  
to have the Engineering and Technical Panel of our Career Service  
Board review the status of his obligations under the CREI courses  
in which he is enrolled. As you are aware, all individuals  
recommended for promotion are competitively evaluated by our  
Career Service Board and Panels and in the case of technical  
personnel, progress in these courses is considered.

25X1A9a [REDACTED] received tuition advance for CREI courses 1, 2,  
3 and 5, and commenced course 1 about March 1954. The normal time  
allowed for completion of these courses is three years. I note  
that the Fitness Report submitted in connection with [REDACTED] promotion 25X1A9a  
25X1A9a recommendation on [REDACTED] makes reference in item C3 to [REDACTED] 25X1A9a  
approaching the completion of his correspondence course with CREI.  
Does this mean that he is about to complete Number 5? If not, what  
schedule has he set for himself for completion of all of the CREI  
courses in which he is enrolled.

Sincerely,

25X1A9a
